WARD RECYCLING Metal Recycling

Ward Recycling provide professional metal recycling and waste management solutions for businesses of all sizes. Our nationwide collection service for ferrous and non-ferrous metal and waste recycling capabilities.

As one of the largest independent metal recyclers in the United Kingdom, Ward Recycling handle in excess of 250,000 tons of ferrous and non-ferrous metal per year.

Our strength in investment and expertise provides an extremely competitive pricing and service structure. Prices can linked to Metal Bulletin which enables Ward Recycling to maintain a clear and transparent pricing structure. A nationwide collection service is provided for materials with our fleet of articulated trucks, roll on off vehicles and skip lorries. All of our sites are fully equipped with public weighbridges.

Ward Recycling meets all the relevant United Kingdom, EU and US specifications for recycled materials and working alongside our customers develop new standards where non exist.

Partnerships

Our customers are regarded as business partners. Through a close relationship we can ensure that you receive the service level and professional approach to recycling and the environment that your business requires. Environmental legislation

dictates that your material is recycled correctly with all necessary documentation.

Works Contracts

Works contracts are a core business for Ward Recycling. We have dedicated staff, transport and equipment whose sole task is the operation management of our clients scrap metal requirements. We are able to offer an extensive range of transport and storage facilities. Our containers come in a range of sizes and are purpose built and in excellent condition. Having such a wide and comprehensive range of storage units we can always find the right size container for your requirements.

We can supply you with as many containers as you need in any combination. Our reputation for excellent service is well deserved and is available 24 hours a day, 7 days a week by arrangement.

From the moment you ask Ward Recycling to look at your metal recycling strategy, we will take a step by step look at your current process to determine the most efficient way of identifying your requirements.

Ward Recycling aims to provide the level of service that the customer requires and unlock the maximum value for their material. Our portfolio of customers covers a multitude of the manufacturing industries and enables us to offer a vast range of services that can include the following:

Ferrous Metals

- Heavy engineering steel
- Demolition scrap
- Lighter grades
- Mild steels
- Punchings
- Turnings

Non-Ferrous Metals

- Copper
- Stainless Steel/Nickel
- Aluminium
- Brass
- Electrical scrap including cable

Ward Recycling can also provide:

- On site processing service
- Secure destruction of products
- Environmental evidence
